

# INSTRUCTIONS FOR STRAPTHIS

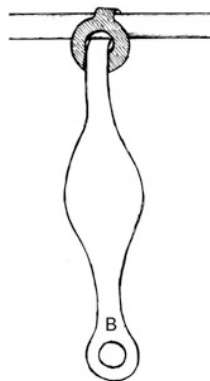

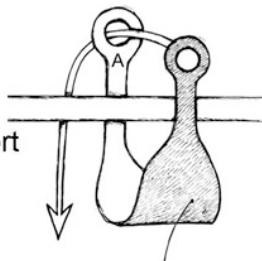

Step 1: Place *STRAPTHIS* on a flat surface, logo side up with the long neck (A) farthest away from you.

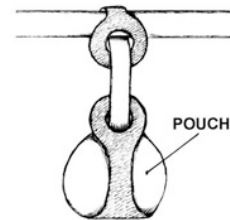

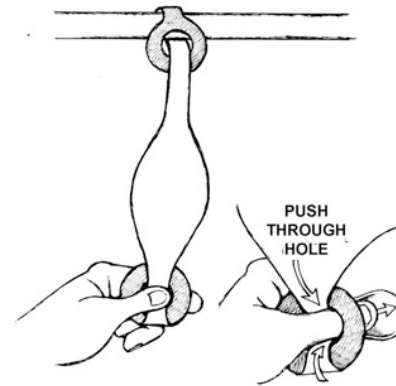

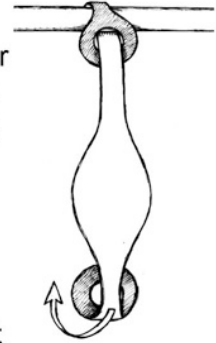

Step 2: Slide long neck (A) behind or through the intended attachment point.

Step 3: Slide short neck (B) through long neck (A) opening and continue to pull through until *STRAPTHIS* is tight around the attachment point. (B) side opening should be visible.

Step 4: Place thumb and forefinger on either side of short neck (B). Bend (B) side hole backwards and hold with forefinger. With thumb press through (B) side hole and pull short neck downward and over logo to create pouch.

Step 5: Slide container through side of pouch and pass pump through available top opening. Base of container should be on logo.
